

Quick Pickles

Season: All

Makes: 1 × 500 ml jar of pickles

Fresh from the garden: seasonal vegetables and herbs (see suggestions below)

Note: You can experiment with different types of vinegars, herbs and spices to create a variety of flavour combinations that go with your seasonal produce.

Suggestions by season:

Summer/Autumn: Beans, cherry tomatoes, capsicum and cucumbers combined with herbs and spices like bay leaves, chillies, dill and garlic.

Winter/Spring: Beetroot, carrots, cauliflower, daikon and radishes combined with herbs and spices like cumin seeds, fennel seeds, mustard seeds and thyme.

Equipment:

metric measuring cups and spoons tea towel chopping board cook's knife heatproof jug mixing spoon 1 x 500 ml sterilised jar

Ingredients:

1 cup white wine vinegar
1 cup hot water
1 tsp salt
¼ cup castor sugar
2 cups sliced seasonal vegetables

What to do:

with lid**

- 1. Prepare all of all the ingredients based on the instructions in the ingredients list.
- 2. In a heatproof jug, mix together the white wine vinegar, hot water, salt and sugar until the sugar and salt dissolve.
- 3. Put the sliced vegetables into the jar, slipping in any herbs and spices at this point. Leave a 1 cm space at the top of the jar.
- 4. Pour the hot pickling liquid into the jar carefully, filling it to within 1 cm of the top. Make sure all the vegetables are submerged.
- 5. Cool on the bench for an hour to let the vegetables pickle. These quick pickles are now ready to eat or can be stored in the fridge for up to 2 weeks.

**To sterilise the jars, simply wash them in hot soapy water, then rinse them in hot water. Place in a stockpot of boiling water for 10 minutes, then drain upside-down on a clean tea towel. Dry thoroughly in an oven heated to 150°C. Remove the jars from the oven and fill them while still hot.

^{*}Adult supervision required.
